Work Experience

Web Developer, GlobeMed Group   **April 2022-Present**
Sin El Fil, Lebanon
- Leading development teams in Traditional Web and Reactive Web using Outsystems, in an agile environment.
- Gaining experience in extending Outsystems capabilities and connecting with external databases.
- Taking initiative in team projects and helping new recruits get accustomed to our software and business process.
- Getting more experienced in writing oracle SQL queries and scripts.

Software Development intern, Schemazone   **January 2022-February 2022**
Remote
- I became familiar with choosing the best OS, IDE, programming languages, etc… for any project I will work on, depending on the requirements, which include the time, cost and available hardware and software.
- I developed a deeper knowledge of e-commerce websites; how to build and manage an e-commerce website, handle client requirements, etc…
- I was given the opportunity to work in a team, further enhancing my communication, teamwork and management skills.

Junior Web Developer, GlobeMed Group   **June 2020-April 2022**
Sin El Fil, Lebanon
- Worked on a low-code platform, Outsystems, to develop applications related to medical insurance (with focus on HTML, CSS and JavaScript – including JQuery).
- Became familiar with PL/SQL by building several queries, procedures and functions.
- Was part of the special projects team, so I worked with JSON files, REST APIs, business process automation and custom forms.

Web development intern, Khatib And Alami GSI   **August 2019**
Jnah, Lebanon
- Enhanced my front-end development skills by developing several websites.
- Tested my knowledge in backend development using Node.js and MongoDB.

- Became familiar with REST API.
- Was given an application written in Typescript, on an AngularJS framework, to edit and debug.

IT intern, IBL Bank   **July 2019**
Achrafieh, Lebanon
- Learned how to safely manage banks, physically and through secure software.
- Managed a mock database with the supervision of the DBAs.
- Enhanced my knowledge of network configuration by using Cisco Packet Tracer

Assistant monitor, Colonie Lou & Lo   **Summer 2018**
Beirut, Lebanon
- Encouraged myself to be more outgoing with colleagues and parents while also improving my communication skills.
- Learned a lot about dealing with stressful situations.

Assistant monitor, Colonie Besançon   **Summer 2016**
Beirut, Lebanon
- Developed high communication skills while communicating with parents about different matters.
- Organized several activities for children, that were fun as well as educational.
