# Experience

## **Carpet On Demand L.L.C., Dubai — Head Developer**

Feb 2022 - June

### SUMMARY

I have landed this opportunity to work with <https://carpetondemand.ae> which is a website where you can choose your space design, you can customise your furniture, carpets, wallpapers and curtains. This was all achieved with wordpress and Elementor pro and great implementation of javascript and php for the customization app where I was in charge.

### ACHIEVEMENTS

1. Deploying a professional website
2. Increasing in sales
3. Responsive for all platforms
4. Easy to navigate and consume content
5. Deploying the luxury design
6. Used animation and the parallax feature

## **Total Trust Company S.R.C., Beirut — Team Leader**

June 2022 - Present

### SUMMARY

Total Trust is a public services company where its mission is to provide their clients with their needs from the available services, so naturally they were in need of a platform to market their services. And I was there to help them grow and improve their online presence whether by building a platform like a website or helping them with marketing in managing their social media accounts by choosing the right designer and writing good and engaging content.

### ACHIEVEMENTS

1. Animations using after effects
2. Building an informative website using wordpress
3. Marketing their services
4. Learned about meta business platform for managing ads and content
5. Easy to navigate and consume content
6. Deploying fun and engaging design for the website

Listing all of my work here would be too long for this Resume

# Education

## **LIU, Beirut — Bachelor Degree in CSCI**

November 2021 - Present
