COVER

Passionate about financial markets and investments, actively following global economic trends, stocks, and bonds. Engage in efforts to promote financial literacy via workshops and seminars. I bring a strong foundation in financial analysis, risk management, and client relations. I am skilled in technical analysis, including analysing trendlines, moving averages, RSI, and stochastics. Excelled in interpreting financial ratios, and fundamentals, and actively following foreign exchange and stock market news via forex factory. Seeking a career in investment banking, financial analysis, wealth management, or risk management.
