Mostafa Nafeh

Software Engineer | Dubai | UAE

mustaphanafeh@gmail.com | +971 527388275 | www.linkedin.com/in/MostafaNafeh

Passionate and driven Software Engineer with expertise in full-stack development, dedicated to crafting innovative solutions and improving user experiences. Thrives in collaborative environments and enjoys tackling new challenges. Eager to collaborate with like-minded professionals on projects that drive innovation and shape the future of technology.

EXPERIENCE

FullStack Developer   Dec. 2022 — Apr. 2024
Residents AI - Hollo AI   LA, USA

- Took lead in frontend development, assuming responsibility for crafting responsive UIs using React, Next.js, and TypeScript.
- Leveraged Tailwind CSS and Material-UI (Mui) for streamlined design and enhanced user experience across various browsers.
- Spearheaded the implementation of backend functionalities with Node.js/Express.js, seamlessly integrating RESTful APIs and JWT to ensure smooth communication between frontend and backend systems.
- Assumed ownership of MongoDB management, meticulously designing the database for optimal data integrity and retrieval efficiency.
- Demonstrated leadership by adopting Redux Toolkit (RTK) for efficient state management, significantly reducing boilerplate code and enhancing maintainability.
- Introduced RTK Query to simplify data fetching processes, resulting in improved application performance and responsiveness.

FullStack Developer   May 2020 — Jun. 2022
Laser   Lebanon

- Excelled in Full Stack Development, specializing in medium-scale websites and applications.
- Created Full Stack applications using Angular, ReactJS, Redux, Node.js, Express.js, .NET, and MsSQL, demonstrating versatility across multiple tech stacks.
- Mastered the design and management of relational (Microsoft SQL) and NoSQL (MongoDB) databases, executing CRUD operations with Node.js, and crafting optimized SQL queries and NoSQL database management.

FREELANCE

The Grand Khan | C# React, Redux, RTK Query

- Took charge of frontend development for "thegrandkhan.com," exhibiting leadership and ownership from inception to launch.
- Utilized React, Redux, and RTK Query to create a dynamic and user-friendly interface, incorporating Tailwind CSS and Material-UI (Mui) for polished design aesthetics.
- Employed advanced two-step authentication and JWT integration to bolster security measures, ensuring robust user authentication and authorization.
- Demonstrated self-reliance and initiative by independently managing all aspects of frontend development, including UI design, state management, and data fetching, ensuring a cohesive and high-quality end product.
- Proactively collaborated with clients throughout the development process to align the project with their vision and requirements, effectively communicating progress and soliciting feedback. This showcased strong client management skills and a commitment to delivering tailored solutions.

PROJECTS

CS Final Year Project | C# .NET, SQL Server, and Angular

- Engineered a sophisticated Employee Management System, harmonizing C# .NET with Angular for seamless integration.
- Implemented core Angular features (Routing, HTTP client, Reactive forms, Pipes) to elevate system capabilities effectively.
- Employed Entity Framework Core, ensuring streamlined and effective data handling and organization.

EDUCATION

Lebanese University   2023 — 2024
Masters of Science: Computer Science
Lebanese University   2019 — 2022
Bachelor of Science: Computer Science

Technical Skills

Languages : C#, JavaScript, TypeScript. HTML/CSS, SQL
Frameworks/Libraries : React.js, Angular, Node.js, Express.js, .NET, Redux.js, Redux Toolkit (RTK)
Developer Tools : Git, Docker, VS Code, Visual Studio

Soft Skills

Effective Communication Strong verbal and written communication skills for clear collaboration and documentation.
Team Collaboration Proven ability to work well in teams, fostering positive relationships and contributing to collective goals.
Adaptability Flexible and quick to learn, adept at adjusting to changing priorities and environments.
Problem-solving Skilled at creatively and efficiently solving complex problems with attention to detail.

ADDITIONAL EXPERIENCE

Fitness Coach   2018 — Present
Various Locations

- Provided guidance and motivation to clients to help them achieve their fitness objectives.
- Developed strong communication and interpersonal skills through coaching and interacting with clients from diverse backgrounds.
- Mastered scheduling and balancing multiple clients, enhancing ability to prioritize tasks and meet deadlines.
- Cultivated dedication and discipline through personal fitness regimen, translating to focused work ethic in software development.
