Skill Highlights

- Respect Deadlines
- Decision Maker
- Teamwork
- Clean Code Writing

Technical skills

- Experience with Software (Visual Studio, Visual Code, SQL Server)
- .Net Framework (C#)
- Programming Language(C#, Java)
- Relational Database (SQL Server)
- Web Development (HTML, CSS, Typescript, PHP)
- Angular
- React JS
- Redux
- Full Stack development
- OOP Principles
- Clean Coding Principles
- Bootstrap
- Design Patterns
- Agile methodology (Scrum Framework)

Languages

- Arabic: Native Language
- English: Excellent in reading, good in Speaking and writing

Work Experience

Asp.net:
Restfull API, EF Core, C#, Asp.net core Identity, RBAC, Custom Middleware, Mail Service, Repository Pattern, Façade Pattern, UnitOfWork Pattern, Asp.net MVC

Angular:
Multiple Layout, Lazy Loading, Redux, RBAC, Solid Work, Angular Animation, Angular Material

ReactJS:
Multiple Layout, Redux, React ToolKit, TypeScript, Material UI, Formik, Yup

Some of Projects I Worked On:

Project 1: WikiDev: Community for sharing Developers experiences

Technologies:
Asp.net core, Asp.net API, Entity Framework Core Code First, User Identity, Mailing Service, JWT token, Role Base Authorization, Repository Pattern, Façade Pattern, Dependency Injection, Angular Framework, Three Layer in Front End, Bootstrap5 Angular Animation, Lazy Loading, Multiple Module.

Project 2: Car Importer: Providing special services for importing cars

Technologies:
Asp.net core, Asp.net API, Entity Framework Core Code First, User Identity, JWT token, Role Base Authorization, Repository Pattern, Façade Pattern, Dependency Injection, ReactJS, Redux Thunk, Multiple Layer, React Tool Kit, React Form, Bootstrap5, Routing, Connect Redux to Components

Internship

Full Stack Developer   **October 2021 – June 2022**
Coding and Development, Mayfadoun
SQL Server, C#, Rest API, Rabbit MQ, Angular

Education

Bachelor of Computer Science   **October 2019 – June 2023**
Lebanese International University – Nabatieh

Certification

Angular   **March 2022**
Online Udemy Course
