Career Objective:

I'm a Fresh Graduate Architect (B.A) perceiving my master's degree in Architecture (March). I am willing to be part of your company, as an Architectural intern/architect.

A creative and growing environment where I can learn and develop my skills related to this field; and imprint, as a self-learner candidate, my knowledge and skills related to software literacy, analytical and design thinking essential for this role.

Having a gap semester ahead, this opportunity provides me the involvement needed in the field/office work.

Core Skills:

Technical skills:

Computer literacy: Proficiency using:

- Autodesk (Autocad-3dmax),
- Adobe Photoshop,
- rendering software (Lumion and V-Ray),
- 3D modelling (Revit, Rhino and SketchUp).

Design thinking:

- Research,
- Analytical approach: by analysing the given data and the existents area of study.
- Reasoning skills: problem solving and finding reasonable, detailed and adaptable solution.

Knowledge of Laws and Codes:

- Legal knowledge: Lebanese construction Law and regulations.

Visualisation skills:

Visualise and represent conceptual ideas using:

- Free hand sketching.
- Diagram based representation.

Experience:

Youssef Tohme Architects and Associates (YTAA)

(Jul 2022-Aug 2022)

Intern

The internship period undertook two main projects:

Saint Nazaire architectural Competition (Paris):

- Generated 2D residential plans, sections and elevations for 8 buildings with different typologies (social housing, type T1, T2 T3, T4).
- Corporate with design team in France for design alternation.
- Created detailed 3Ds for 8 residential buildings using SketchUp and rhino.
- Developed rendered views using computer-based software (photoshop).

CT project in Faqra:

- Supported the refinement and verification of the design drawings to conform to specifications and laws.
- Generated detailed 3D with landscape.
- Worked closely with the collaborative architect team in reviewing and validating design deliverables.
- Efficiently operated computer-assisted design and drafting workstations.

Education:

(June 2017)

- Lebanese Baccalaureate: Life Science (French SV)
Mention: Good Grade:14.13/20

(Sept 2017-june 2021)

- BArch: Bachelor's degree in Architecture: Académie Libanaise des Beaux-Arts (ALBA).
