- **English** Bigener

Hobbies

maintenance house hold
appliance

Education

- Bachelor's Degree in computer science at Lebanon university (Nov 2022)
- Bachelor's Degree in Electronics at Lebanon university (Nov 2019)

Project

• Car-share (Final project)

An application that facilitates transportation from far villages to cities and other villages, which will have benefits on both, the driver who'll be able to make some money, and the passenger who'll reach his destination.

• Motorcycle Security system

This project is implemented using Arduino to protect motorcycle against theft or attempted theft by sending the coordinate of the location through SMS and you to call when the engine is moved.

Personal Experience

--private teacher in a institute "A to Z" 2019

--Member of chaqra Youth 2020
