jamil_almasry@hotmail.com · Jamil Al Masry | LinkedIn

Computer science graduate aiming to improve my development skills, gain experience in the field. Ambitious and persistent developer looking for the best and eager to pursue a master's degree.

PROJECTS

07-2022 – PRESENT

E-LEARNING PLATFORM

Allow instructors to upload online courses in different topics while student, on the other side, can enroll and study in these courses to improve their knowledge and skills.

- HTML, CSS and JavaScript as front-end.
- Node.js and Express.js as back-end.
- MySQL as database, WAMP as a local server.

05-2022 – 08-2022

USING 'OPENEMR' TO CUSTOMIZE A HOSPITAL INFORMATION SYSTEM (FINAL YEAR PROJECT)

Facilitate the data entry in a hospital/clinic and record it to provide the patients with a better service.

- Studied the OpenEMR software features and terms of use.
- Studied the data and medical terms used in the Lebanese Healthcare Sector.
- Customized and configured the software to integrate with the Lebanese condition.
- PHP is the back-end language used in customization.
