Phone number: +961 81410654

Objective: Seeking a remote java Development internship to utilize my skills in programming and technology, and further develop my knowledge in the field.

Education:

Currently a second-year student pursuing a Bachelor's Degree in Computer Sciences at the Lebanese International University.

Skills:

- Proficient in java and SQL
- Fluent in English with strong communication skills
- Excellent team worker with passion for learning and developing new skills

Projects:

- Developed a calculator program using java
- Made a hangman game using java
- Created a Crime reporting database using SQL

Availability: Available any time as all times suit my schedule including weekends , except university schedule(8 am till 3 pm Monday through Thursday).

I am confident that my passion and skills make me a strong candidate for this internship. I am excited to bring my knowledge into a new environment and grow as a developer.

Thank you for considering my application.

Sincerely,

Ahmad Jarouche
