Chebeneye, El Metn, Lebanon

05 January, 1993

I am a grounded, solution-oriented person with a wide variety of professional experience in the field of Computer Science. My passion about data security, data management, and IT is a distinguishing feature of mine. One of the best pursuits ,I always strive to do, is educating the next generation of technology users and innovators on how to make the safest use of Internet and smart devices through providing clear instructions and effective practices about cybersecurity .
