Professional Summary

Greetings! I am Sharifah Amayri, a **Business-Information Technology Management** graduate from the **Lebanese American University**. With a fully funded **USAID scholarship**, I achieved third place in a university-level data visualization competition, exhibiting proficiency in Tableau and data storytelling. I'm eager to learn more about how I can use my skills to help your company make data-driven decisions.

Education

**BS in Business- Information Technology Management ,
Lebanese American University (LAU), Lebanon/ Beirut**

09/2020 - 05/2023

Information Technology Management (ITM) is the discipline whereby all of the information technology resources of a firm are managed in accordance with its needs and priorities to operate efficiently and effectively.

Related Courses: Business Data Communication, Enterprise Resource Planning (ERP), Data and Information Management, Information Security and Design, System Analysis and Design, Strategic Planning and Policy Formulation, and Introduction to Applied Data Analytics

Internships

IT Management Intern, LEE Program at LAU

03/2023 - 05/2023

During my internship with the Lebanese American University's Leadership Empowerment Education Program (LEE), I researched various facets of IT management. My duties included generating excellence reports and making suggestions for enhancing IT administration procedures.

IT Intern, Elie Saab's IT department

During my internship, I provided assistance to ELIE SAAB's IT department by performing tasks related to data entry operations, data validation, data analysis, and report preparation.

Projects

Dental Management project, Lebanon, Tyre

01/2023 - 05/2023

This project involved developing a comprehensive solution to streamline operations in dental clinics, from appointment scheduling to patient records management, inventory control, and billing systems. The project was implemented in Dr. Bachar Reda's clinic.

Data Visualization Project , Lebanon, Beirut

09/2022 - 12/2022

- LAU, Matrix TRC SAL, Unilever, BMB, CME, and Ciatex set up a Data Visualization Competition.
- Analyzed a complex dataset related to a shop.
- Cleaned the data, handling missing values, duplicates, and standardizing formats.
- Utilized Power BI and Tableau to create interactive visualizations.
- Created bar charts, line graphs, and heat maps to reveal insightful patterns and trends.

Hobbies

Volunteering

Community involvement

Languages

Arabic

English

Russian

- Communicated key findings through compelling data stories with annotations and explanatory text.
- Achieved a commendable third-place position.

Inventory Managment and Order Tracking System, Lebanon, Menieh

09/2022 - 12/2022

- Developed and implemented an integrated database system for Resto-Café Delight.
- Two key goals: optimized inventory management and efficient order tracking.
- Started from scratch by creating a business scenario, defining business rules, and creating an Entity-Relationship Diagram (EERD).
- From the EERD, I designed a schema diagram and mapped data elements to attributes.
- Implemented the system in SQL Server, optimized tables, inserted data, and crafted essential queries.

Volunteering Activities

Event Organizer Assistant and Logistics Volunteer, Rashet Kheir, Lebanon, Beirut

02/2022 - 03/2022

- Organized an event and a cleaning activity for children in Beirut.
- Assisted in sorting clothes and distributing them to underprivileged people.

Data Analyst Volunteer, Al-Makassed, Lebanon, Beirut

01/2022 - 02/2022

- Assist the Vaccination Team with the data entry of patients' information, then analyze this data and derive insights from it.

Research and Field Volunteer, ANERA, Lebanon, Tripoli

10/2020 - 11/2020

- Collected personal data in Naher Al Bared Camp during the COVID-19 pandemic.
- Assisted in medical equipment and food box distribution for underprivileged people in Tripoli.
