## PROFILE

---

As a passionate Full Stack Web Developer, I'm always looking for new challenges to expand my knowledge and hone my skills. I enjoy working collaboratively to achieve common goals. Seeking a dynamic role in a company that fosters creativity and innovation, where I can continue to develop my technical expertise and contribute to exciting projects.

## EXPERIENCE

---

### Codi-Tech, Beirut

Full Stack Web Developer

NOVEMBER 2022 – June 2023

- Developed web applications using Node.js Express and PHP (Laravel) for dynamic websites.
- Created responsive and interactive user interfaces using JavaScript and React.
- Utilized Bootstrap to ensure consistency and efficiency in front-end development.
- Configured, deployed, and managed servers using LAMP stack (Linux, Apache, MySQL, PHP).
- Managed web content efficiently using WordPress.
- Practiced Agile methodology and used tools like Trello for project planning, task management and team collaboration.

### Life Project 4 Youth (LP4Y), Batroun, Sourat

HR Officer Trainee

JULY 2022 - NOVEMBER 2022

- Collaborated with a team of 7 individuals to achieve project goals and deadlines.
- Conducted recruitment efforts to bring on board new team members with appropriate skills and experience.
- Assisted team members with tasks to ensure project deliverables were met on time and to the highest standards.
- Provided follow-up on the integration of new team members to ensure they adapted well to the team's culture and work processes.

## PROJECTS

---

### Kiddle | Education website | MERN Stack.

- Developed an education website using the MERN Stack, specifically designed to teach programming to children. The website features an interactive platform with engaging content and exercises that simplify complex programming concepts for young learners. The design incorporates user-friendly interfaces and educational materials to enhance the learning experience.

### Ecommerce | MERN Stack.

- Ecommerce MERN Stack for a wholesale candy and chocolate seller, seamless online shopping experience that caters to the customers' needs.

### Ecommerce | WordPress.

- Ecommerce wordPress website for Baladi in frames is a Small artistic business that targets Lebanese people in the diaspora that want to own a piece of home or a beautiful art piece (Illustrations, photographs, keychains..etc) that will remind them of their Hometown.

### Financial App | LAMP Stack.

- Managing the finances of a company involves tracking and organizing all financial transactions, including expenses and incomes.

### Portfolio with Blog Section | MERN Stack.

- A personal portfolio is a collection of work samples, projects, and achievements that display a person's skills, experience, and qualifications. It can be used to demonstrate talents to potential employers or clients and to track personal progress over time.

### Autistic Tic | Autism Mobile Application | Flutter & Dart language.

- The Autistic Tic app is a mobile app for children with autism. It uses visual and interactive methods to help them learn and remember daily actions. The app is personalized to each child's needs and includes photos and quizzes to make learning effective.
