Software Developer

With less than 2 years of experience as a Software Engineer, I have successfully managed and developed business applications using technologies such as Progress ABL and JavaScript, resulting in a notable 15% improvement in efficiency for my first company project within just 3 months. Proficient in precision coding and solution optimization, I am now seeking a position that will allow me to continue growing professionally and personally while contributing my hard work and dedication.

WORK EXPERIENCE

Data Quest Sal • Lebanon • On-site • 05/2023 - 06/2024
