An enthusiastic, creative and a highly motivated Architect, seeking to cultivate my knowledge in the fields of Design and Execution, and achieve my hopes of improving local and urban issues through intelligent design.

## Work Experience

**First Marble and Granite - Qatar**  
**Design / Concept Architect**  
**April 2022 – current position**  
Industrial City, Qatar.

A short description of what I am handling at FMG:

- Designing and visualizing spaces, marble products and issuing drawings for production.
- Coordinating the production of interior/exterior marble designs, tiling and cladding.
- Preparing cutting lists and issuing orders for production for various projects.
- Quality control for fabrication process, plus site inspections.

**GAF&CO**  
**Architect**  
**June 2021 – January 2022**  
Industrial Zone, Nahr Ibrahim, Lebanon

Here is a brief description of what I did for GAF&CO with some of my key responsibilities:

- Designing and executing waterjet drawings, medallions, with different sizes and material.
- Product designing and visualization of interior products including marble pieces from the initial concept to the complete execution of designs.
- Designing and visualizing interior spaces, plus issuing drawings for production, and IFC drawings. (Offices, Counters, kitchen tops, tables.)

**SAFA GROUP**  
**Design Architect**  
**March 2019 – September 2020**  
Nabeh Al Safa, Ain Zhalta, Lebanon

Here is a brief description of what I achieved at Safa Group with some of my key responsibilities:

- Managing and Coordinating the production of interior marble cladding for CMA Tower - KSA
- Involved in all phases of the design and production process, from the initial concept to the completed execution.
