PROFESSIONAL EXPERIENCE

ANCHOR VENTURES HOLDING

Beirut, Lebanon

Front End Development Internship

Nov. 2022 - Present

- Developed and implemented responsive and interactive web interfaces using React, leveraging reusable components, hooks, and state management to create a seamless user experience.
- Implemented Redux for state management, maintaining a single source of truth for data throughout the application and ensuring consistent behavior across components.
- Collaborated with cross-functional teams, including designers and backend developers, to develop, test, and deploy new features and enhancements, ensuring timely and high-quality delivery.

ASK TECHNOLOGY S.A.R.L.

Beirut, Lebanon

Data Entry Operator

Dec. 2020 – Jan. 2021

- Accurately entered and maintained data in various systems, ensuring completeness and correctness of all records.
- Conducted routine quality checks on data to identify and correct errors or inconsistencies, maintaining data integrity and accuracy.

PROJECTS

Maida

- Designed and developed a full-stack web application using React and PHP that allows local and small businesses to share their culinary creations online and customers to place orders.

Human Action Detection Model

- Developed a machine learning model using TensorFlow that accurately describes an action taken by a human.
