ABOUT ME

To leverage my skills and expertise as a full stack developer in a dynamic organization that values innovation and creativity, where I can contribute towards the development of innovative solutions and deliver exceptional user experiences.

WORK EXPERIENCE

Full Stack Developer
FreeLance / Saida / Jan 2023 - Present

I created user interfaces and built a small web applications using React.js. I have also honed my skills in front-end development with HTML, CSS, and animation. On the backend, I am familiar with Node.js and can create RESTful APIs to power web applications.
With my expertise in these technologies, I am able to continue and develop my programming skills.

Manager / Accountant
BigBite Restaurant / Kinshasa / Apr 2022 - Mar 2023

During my time working at a BIgBite, I developed a strong time management skills with the ability to motivate my team to work efficiently. I excelled at working under pressure, juggling multiple tasks while maintaining a positive attitude. Additionally, I was proficient in using Omega software, which helped me to streamline various aspects of the restaurant's operations. Overall, my experience working in a restaurant taught me the importance of teamwork, adaptability, and staying organized in a fast-paced environment.
