## EDUCATION

### Computer Engineering

Antonine University, Baabda

2019 - Present

Current GPA: 77.904/100

## PERSONAL PROJECTS

### Web Programming

- A website using an API to acquire information about manga/anime and display them on the page in a clean and simple manner with the ability to search for specific items, as well as a personalized system that allows users to add shows to a watch list, and a profile page to see his watch list and personal info.

### Web Multimedia

- Social platform, for artists and enthusiasts. Developed using React JS and Node JS. It allows you to add friends and chat with them, post pictures and view others, browse through your gallery and through a store to buy art pieces, and more.
