EXPERIENCE

All Girls Code BEIRUT, LEBANON
Intern, Executive Team Member July 2022 – September 2022

A Lebanese award-winning initiative that empowers young females in STEM in the MENA region with tech-immersive programs.

• Built expertise by organizing a 3-day workshop "TechXplore" to teach coding languages (Python, HTML, CSS, JavaScript) to females around the globe with limited access to tech knowledge and programs.
• Gained guidance information about the tech industry by being mentored by a technical consultant working at VMware.
• Awarded the golden certificate for being the best and most active intern in the Executive Team.

TechGirls Exchange Program – Legacy International BEIRUT, LEBANON
Communitech Team Member July 2020 – August 2020

An international summer exchange program designed to empower and inspire young women to pursue a career in STEM.

• Designed an application prototype to address the issue of poverty in Lebanon by providing people with the necessary tools to fulfill their needs.
• Acquired a growth mindset by attending a design thinking workshop that introduces the basic strategies to build a protype.
• Presented the app prototype to the Legacy International Community and the head of the US Embassy in Lebanon.
• Explored the workspace of NASA by attending a virtual job shadowing day with expertise and female leaders.
• Analyzed the impact of Covid on Europe by completing a data science course called "Storytelling with Data".

PROJECTS

Hotel Reservation Website – Computing Networks and Services
American University of Beirut December 2022

• Developed a server-client platform to browse and reserve hotel rooms.
• Implemented the following functions using Flask framework: login, logout, sign-in, sign-out, edit profile, view available rooms, reserve a room, view reservations, bill-out, email confirmation, and forget password.
• Used MySQL as a database to store the user's information, reserved rooms, and available rooms.

CERTIFICATIONS

LCPC | Lebanese Collegiate Program Competition 2022
TechGirls | C++ Programming Course 2021
INJAZ | Innovation Camp 2021
