Summary

I am a passionate software engineering student with a strong interest in developing innovative solutions to real-world problems using cutting-edge technology. With expertise in programming languages such as Java, Python, and C++, I have experience in building efficient and scalable software systems.

My experience in data analysis, machine learning, and web development has helped me acquire a diverse set of technical skills. I am committed to collaborating with cross-functional teams and using agile methodologies to deliver high-quality software products.

As a lifelong learner, I am always looking for new challenges and opportunities to expand my knowledge and skills. I am eager to continue my career in software engineering, where I can leverage my technical expertise and passion for innovation to create a positive impact on the world.

Experience

Jafra Foundation
Bilingual Translator and Press Review Specialist
July 2022 - Present (11 months)
Beirut, Lebanon
