SUMMARY

As a Computer Science student, I am seeking an internship in the field of Web Development. I am eager to apply my technical skills and knowledge to develop innovative and user-friendly web applications that meet the needs of users.

SKILLS

HTML, CSS, JavaScript, Python, PHP, Java, SQL, C, DevOps, Agile

EDUCATION

Lebanese University,   Tripoli, Lebanon   **October 2023**
Bachelor of Computer Science
- Coursework: *Web development Client Side, DataBase, Web development Server Side.*

Software Engineering Experience

University System Github   **Mar-May 2023**

> Contributed to the development of a web-based learning management system. Implemented user authentication, course creation, chapter management, and document upload functionalities using PHP, MySQL, HTML, CSS, and JavaScript. Collaborated with a team to create an efficient and user-friendly platform for organizing and sharing educational materials

E-commerce API   Github   **May 2023**

> Designed and implemented an e-commerce website that fetches product data from an API and dynamically displays it on the web page

Currency Converter Github   **May 2023**

> Implemented a currency converter using HTML, CSS, and JavaScript. Integrated an API to fetch
>
> real-time exchange rates and dynamically display the converted values

Other Experience

Intercontinental Mzaar, Faraya,   **every Summer since 2018**
Maintenance team leader at the summer festival
- As a maintenance team leader at a summer festival, I ensured prompt responses to maintenance requests from attendees and staff to provide a smooth and enjoyable event experience.
- The role of a maintenance team leader at a summer festival is essential to ensure a well-maintained festival.
- To perform my role as a maintenance team leader at a summer festival, I managed my team efficiently, conducted regular inspections, maintained open communication with festival staff, and responded promptly to any maintenance emergencies or issues that arose.
