CAREER OBJECTIVE:

Graduating next year with a computer science degree and looking for a role in developing and design software where I can grow and learn from experienced team members.

EDUCATION:

2021-present: Lebanese American University, Beirut
              B.A in Computer Science

SKILLS & QULAIFICATIONS:

- **Communication:** Fluent English Language and good French language; excellent communication skills; cooperative in team work projects.

- **Technical:** Java, python, MySQL, C language, PHP. Programming concepts and techniques, data structures and algorithms, object-oriented programming, software engineering, and database systems.

EXTRACURRICULAR ACTIVITIES

Database project: **October 2022- November**
Completed a database team project within challenging deadline (Implement a relational database design in oracle for a hotel and created challenging queries to test design)

Software engineering project:

Working on a software engineering project with a team, focused on developing a beauty center management system.

RISC processor project: **February 2021 – April**
Designed a RISC processor that supports arithmetic, memory access branch and register operation and sketched data path for several instruction and implemented the design.
