

Sultana Nasser

FrontEnd Developer

+961 78 909 991 | sultana.nasser100@gmail.com | [Beirut, Lebanon](#) | [linkedin.com/in/sultana-nasser100/](https://www.linkedin.com/in/sultana-nasser100/)

Profile:

FrontEnd Developer with 2 years of experience in building high-performance, scalable web applications using React.js and TypeScript. Skilled in developing reusable components, optimizing front-end performance, and integrating RESTful APIs. Proficient in modern build tools, state management (Context API, Recoil), and version control (Git). Known for strong problem-solving abilities and a collaborative approach in delivering seamless user experiences.

Technical Skills:

- **Programming Languages:** JavaScript, TypeScript, Java, C, C++, PHP, Node.Js
- **Markup & Styling:** HTML, CSS
- **Frontend:** React, React Native, Next.js, Styled Components, Recharts
- **Version Control Systems:** Git, GitHub
- **State Management:** Context API, Recoil
- **Development Tools & Practices:** Debugging, Postman, Code Reviews, Npm, Vite, Webpack
- **Management Tools:** Agile, Scrum

Work Experience:

Frontend Developer | DataumX | UAE, Remote

July 2023-Present

- Built reusable React components and libraries, ensuring scalability and maintainability, and translated designs into responsive, high-performance interfaces.
- Developed and maintained React.js applications for 10,000+ users, improving UI performance by 30% and ensuring smooth, cross-browser functionality and maintaining mobile responsiveness.
- Optimized React components for maximum speed and efficiency, reducing bugs by 50% and enhancing overall user experience.
- Mentored 5 junior developers, guiding them on best coding practices, debugging, and performance optimization, fostering a stronger team.
- Collaborated with backend developers, product managers, and designers to refine features, ensure seamless API integration, and enhance usability, delivering 90% of features on time using Agile methodologies.
- Used Git for version control, reducing merge conflicts by 35%, ensuring seamless team collaboration.

Mechanical Design Engineer | Tec Office| Lebanon, On-site

October 2019-October 2020

- Developed and prepared detailed layouts for plumbing, drainage, and heating systems, ensuring compliance with design specifications, contributing to the successful completion of 5+ major projects
- Conducted design calculations to enhance mechanical design feasibility, contributing to seamless project execution.
- Monitored mechanical work on-site, ensuring alignment with approved drawings and adherence to safety regulations.
- Reviewed and updated technical documentation for design changes, enhancing workflow efficiency and reducing errors.
- Collaborated with contractors and engineers to resolve on-site issues, implementing effective, timely solutions.
- Maintained thorough records of site progress, reporting key metrics to improve overall project management.

Education:

Bachelor of Science in Computer Science – Lebanese University (*October 2022*)

Master of Science in Mechanical Engineering – Lebanese International University (*June 2018*)

Bachelor of Science in Mechanical Engineering – Lebanese International University (*June 2016*)

Certifications & Training:

Double Certificate in Full-Stack Development – ESIEE IT France & ESA Business School (*April 2023*)

Additional Skills:

- **Languages:** Arabic (Native), English (Professional), French (Intermediate).
- **Soft Skills:** Cross-Team Collaboration, Adaptability, Active Listening, Quick Learning, Analytical Thinking, Attention to Detail, Problem-Solving, Flexibility.
