Amjad Instates

PROJECTS

MEDIA FLIX(MERN STACK)
- UML to organize data modeling.
- ReactJS FrontEnd Mongoose (NOSQL) as database and node express as BackEnd.
- The main point of the project is to let the user watch a video and consider who's the actor in the movie and what the actor shared.

Smart Esa upgrading website
- We consider UML for data modeling.
- React as FrontEnd join with Json database.
- Created a modern and intuitive website that met the client's specific requirements.
- Focused on user-friendliness and easy navigation.
