Omar Kouzi | Full-Stack Web Developer

Lebanon, Beirut | +96181284452| omar.kouzi424@gmail.com | Linkedin | Github

Job Overview

As a Full Stack Web Developer, my goals are set to create user-friendly web applications. I am passionate about learning old and new programming languages and styles. Following the latest technologies I am excited to use my skills and expertise to help organizations achieve their goals and drive growth through innovative web development solutions.

Experience

Codi Tech | Full Stack Web Developer
Full Stack Development Bootcamp | Lebanon, Beirut | Nov 2022 - Present.

- Worked on multiple projects including NodeJS Express, PHP, Laravel, and SQL for the backend.
- Worked on multiple projects using different frameworks and libraries including Javascript, React, ReactNative, and Bootstrap for frontend.
- Server Management: built multiple reliable and ... applications using LAMP Stack, and Linux
- Applied Agile methodology to successfully manage cross-functional teams and deliver high-quality projects.
- Created and managed websites, and online stores that offer a user-friendly interface, customizable templates, and themes using WordPress.
