Jan 2022 - Present

Arab Open University, Beirut

Im currently enrolled and ongoing in my studying programme

Courses

Java Object Oriented

Feb 2022

I succesfully completed java course at my college maintaining high gpa.

Python Object Oriented

Jul 2022

I really felt it is my type of programming language and did very well in it.

C# .net

May 2023

As an intermediate language between java and C it was an knowledge awarding course.

Data Base Management and Analysis

Oct 2023

It was very important course specially for back end web development and dealing with huge data sets.

Algorithm and Complexity

Sep 2023

For certain it is very essential for us as our future careers necessitates that we write efficient code with respect to time and space complexity.

Web development

Feb 2024

We took deep insights into html, css, javascript , php and my sql.
