PROFILE

A highly motivated Computer Science graduate, looking for a challenging position to help me grow and start my career in software engineering. With the focus on HTML, CSS and JavaScript, I seek to utilize my creative abilities to design user-friendly, easy to use web pages, and grow as a person and employee. I love working hard on generating new ideas and bringing them to life. My greatest assets are organization, commitment, and the ability to learn quickly. I always keen to learn new and improved ways to improve myself, as I am currently working on completing the web development path on Frontend Masters and enhancing my knowledge in React JS framework.

EXPERIENCE

Social Media Officer, Women's Humanitarian Organization (PWHO) (Part-time) – June 2021 - July 2023:

PWHO is a non-governmental organization providing services to Palestinian woman and her family.

- Communicated virtually with each project coordinator
- Got the information about the activities done
- Reached a common ground (even in the cases of disagreement) about the proper way on representing it on social media.
- Designed posters for the occasions and job opportunities.
- Immersed myself in charity work
- Gained fair social media management skills and positive relationships with other co-workers through daily interactions
- Demonstrated creativity and attention to details.
- Achieved an increase in social media engagement by 50% through strategically planning and making sure every post is neat and delivers the message properly in simple words, in both languages Arabic and English.

Cashier, Bader's restaurant – May 2019 - Feb 2021:

- I was a cashier and also responsible for taking the orders over the phone.
- Processed customer's orders and transactions quickly and accurately.
- Provided excellent customer service.
- Since this was a fast paced and high pressure job, it helped me demonstrate high attention to details in cash handling and making sure to take the accurate order and delivery location.
- Developed strong communication skills through daily interactions with customers.
- Through professional honest work and attention to details I was able to close the drawer at the end of each day with no difference, after calculating the exact revenue.

Private Tutor – Oct 2017 - present:

- Managed to teach ten students through this period.
- I had the attitude and the necessary skills to teach students something they found difficult.
- Demonstrated new and special study plans and helped them improve their critical thinking after assessing each student's learning needs
- Tracked their progress through assessments and provided feedback to their parents.
- Developed strong communication skills through regular interactions with students and parents

- Demonstrated patience, and was able to motivate students to be hard workers through daily instructions.
- As a result, all my students recorded a noticeable improvement in their grades.

Computer Lab Assistant, Lebanese American University (Faid Student Employment) – Aug 2018 - July 2019:

- Set up computer equipment.
- Monitored computer lab activities, by reporting and troubleshooting any technical issues and providing help to students.
- Downloaded software when being asked to.
- Made sure that windows are always up to date.
- Developed deep knowledge in computer hardware
- Learned how to benefit from online resources in applying regular maintenance and troubleshooting,
- I was able to deal with different Operating Systems (Linux/Unix and Windows).

EDUCATION

Nov 2019 – Feb 2023 Bachelor's Degree in Computer Science

Lebanese University, First Branch, Faculty of Science

2016 Baccalaureate 2, Life Science – Good Degree

Al-Jalile Secondary School

CERTIFICATES

July 2022 HCIA (AI Huawei Certification)

Huawei

Dec 2022 Introduction to Cybersecurity

Cisco Networking Academy

Nov 2022 Responsive Web Design

freeCodeCamp.org

LANGUAGES

Arabic: Mother language | English: Fluent (Spoken and Written)

SKILLS (SOFT + TECHNICAL)

- MS Office (Word, Excel, PowerPoint), Canva, Programming Languages (C, C#, JavaScript, Java, PHP, Python), HTML, CSS, Bootstrap, Database Management Systems (MSSQL, MySQL), RESTful APIs, ReactJS, Git, WordPress.
