Objective:

Seeking a back-end developer position to utilize my skills and knowledge in web applications and services development. Eager to contribute to a professional team and apply my expertise in real-world projects.

Qualifications:

Enthusiastic and diligent university student aiming to kick-start a career in web applications and services development. With a strong foundation in self-taught programming, I am well-versed in various web technologies. Familiar with the development and deployment processes of numerous web-based technologies and eager to apply my knowledge in a real-world professional setting.

SKILLS AND ACCOMPLISHMENTS:

- Proficient in programming languages such as Python and Java
- Strong understanding of web technologies, including HTML, CSS, JavaScript, and SQL
- Knowledge of back-end frameworks like Django
- Experience with database management systems such as MySQL
- Familiarity with version control systems, particularly Git
- Excellent problem-solving and debugging skills
- Ability to work effectively in a team and communicate technical concepts clearly

EDUCATION:

2022 – Current

Lebanese International University, Bekaa, Lebanon
Bachelor of Science in Computer Science

CERTIFICATIONS:

Coursera:
