Profile

Full-Stack Web Developer experienced with popular frameworks and libraries such as React, Laravel, and NodeJs. My proficiency extends across different technology stacks, including MERN (MongoDB, Express.js, React.js, Node.js) and LAMP (Linux, Apache, MySQL, PHP). I am adept at using version control tools like Git, GitHub, and GitLab. My grasp of frontend technologies includes HTML, CSS, JavaScript, ReactJS, Next Js and React Native. I am well-versed in Agile development methods and the MVC framework. I find it incredibly rewarding to work on the user interface and create engaging and interactive experiences for users.

Experience

Full-Stack Web Developer @Codi Tech | Beirut, Lebanon | Nov 2022 - June 2023

I have enrolled in Codi Tech for 7 months. It is an intensive boot camp. I've engaged in diverse backend projects using languages like Node.js, Express.js, PHP, and databases like SQL and NoSQL. On the frontend, I've utilized JavaScript, and React. Additionally, I'm adept at Linux (Ubuntu) and LAMP Stack for server management. In addition to developing RESTful APIs, fixing bugs, maintaining web applications, and working with Postman.

Data Analyst | April 2022 - June 2022 | Scoop of Design | Remote

Analyzing data using statistical techniques, implementing and maintaining databases.

Projects

Vital Blood| MERN Stack | (Repos: [Backend](#) | [Frontend](#)) | [Video Demo](#) | [Deployed Link](#)

Vital Blood is a blood donation platform developed using the MERN Stack. Users can initiate blood donation requests through a form, explore requests, express their intent to donate, and await response from the requester. The system promptly sends emails (nodemailer) and notifications to users. The user profile feature requiring login to manage their donation experience.

My Portfolio | Next Js | [Repo](#) | [Deployed Link](#)

Created my initial project with Next.js to explore unfamiliar technology. The project is a portfolio showcasing skills, projects, experience and education.

E-commerce | MERN Stack | (Repos: [Frontend](#) | [Backend](#)) | [Video Demo](#) | [Deployed Link](#)

StepUp is a dynamic e-commerce site, featuring various categories with products. Shoppers can explore and find their desired shoes, adding them to their cart. An authorized admin, accessed through login, oversees the platform.

Learning Management System. | LAMP Stack | (Repos: [Frontend](#) | [Backend](#)) | [Video Demo](#)

The system boasts authentication and authorization functionalities, complemented by a dashboard accommodating various user roles and their associated privileges.

Zaynab's Portfolio | MERN Stack | (Repos: [Frontend](#) | [Backend](#)) | [Deployed Link](#)

Designed and developed a portfolio with a dashboard for the admin to edit the content using JWT for authentication.

Education

Lebanese University | Master in Statistics | 2021 - 2022 | Hadath, Lebanon

Lebanese University | Bachelor in Applied Mathematics and Statistics | 2018 - 2021 | Hadath, Lebanon

Skills

Nodejs, Expressjs, PHP, Laravel	SQL, NOSQL, MYSQL, PhpMyAdmin	LAMP Stack, Linux(Ubuntu)
