- **Version Control:** GIT

Soft Skills: Problem solving | Time management | Creativity | Teamwork | Active listening | Adaptability | Critical thinking | Communication skills | Flexibility.

WORK EXPERIENCE

Full Stack Developer

February 2023 – May 2024

TDNT (Triplet Data Networks and Telecommunications LTD)

- Developing APIs to facilitate customer connectivity to our platform through various endpoints using Node.js.
- Designing and developing the front-end application utilizing React, its associated technologies, and Next.js.
- Took charge of testing all project-related features, ensuring robust and bug-free solutions.
- Developing backend applications using Node.js ,Java & Asp.Net, and managing databases including MSSQL, PostgreSQL, and MySQL.
- Created a Telegram application using Telegraf, enhancing the platform's reach and user interaction.
- Developing scripts for automation testing, improving the efficiency and reliability of the testing process.
- Implementing web scraping techniques to gather relevant data, aiding in informed decision-making.
- Leading the optimization and enhancement of an existing application, improving its performance and user experience.
- Transitioning the application from using raw SQL queries to an Object-Relational Mapping (ORM) approach, increasing code maintainability and database interaction efficiency.

Video Editor

July 2023 - Present

Cubic Connect

- Expertly edited and curated content for various series, enhancing the viewing experience and audience engagement.
- Managed and coordinated social media uploads, ensuring timely and consistent content delivery to our audience.
- Conducted regular analysis of social media performance and viewer feedback, driving continuous improvement in content quality.

EDUCATION

Master of Science in Computer Engineering at Lebanese International University

October 2023- Present

Bachelor of Science in Computer Engineering at Lebanese International University

June 2023
