## PERSONAL PROFILE

5+years experienced .NET Developer of experience in developing robust and scalable web applications. Expertise in ASP.NET, C#, and SQL Server. Strong understanding of software development lifecycle. Collaborative team player who excels in remote and virtual environments.

Proficient in front-end technologies (HTML, CSS, JavaScript,Angular) and experienced in integrating user-friendly interfaces with robust server-side functionality.

## EXPERIENCE

**DotNET Developer** -May 2020 - present

**GreyDeck SAL - (Branch: Koein) / Remotely**

Reference : [hr@koein.com](mailto:hr@koein.com)

1. Developed enterprise application, Admin platform and Client Feedback Analytics Platform for Greydeck customers consumption data, which allowed 33K customers to submit requests and feedback , book appointments and pay online.
2. Partaking in client meetings to discuss and analyze the requirements needed for the project.
3. Designing Web APIs, database schema and CMS.
4. Implementing WebApi, creating stored procedures and SQL functions, and building the CMS interface.
5. Ensuring Code Quality through Rigorous Testing and Validation.
6. Deploying Deliverables to Client Environments with Impeccable Integration and Performance
7. Engaging in real-time customer feedback, to better develop any necessary changes and corrections.

**Full Stack Web Developer** – May 2019 - May 2020

**GreyDeck SAL - (Branch: Koein) / On-site**

Reference : [hr@koein.com](mailto:hr@koein.com)

- 1.Developed and maintained 20+ web applications that provided real-time data that scaled up to 10M daily visitors.

## TECHNICAL SKILLS

**Programming Languages :**

C#, JavaScript, Angular, HTML5, CSS, jQuery

**Frameworks :**

ASP.NET MVC, Entity Framework, LinQ, .NET Framework,

**Databases :**

MySQL, SQL Server, Firebase, SQLite

**Tools :**

Visual Studio, MVC tools, CMS Platform, Postman, FileZilla, Git, Azure DevOps, JIRA

**Web Technologies:**

RESTful APIs, AJAX, JSON

**Testing:** Unit Testing.

Agile/Scrum Methodologies

## PROJECTS

**Example of my successfully delivered end-to-end solutions:**

Lexus Lebanon—  
<https://lexuslebanon.com/>

Toyota Lebanon—  
<https://toyotalebanon.com/>

Bank of Beirut Germany—  
<https://beirut-brokers.com/>

Poem Group—

2.Utilized C#, HTML, Css & Javascript to redesign & implement major features & components leading to 20+K users sign-ups

3.Developing and maintaining front-end and back-end features.

4. Building and maintaining internal tools for the business and payment-gateway.

5. Researching and staying up-to-date with current web technologies.

6. Optimizing, identifying and correcting software deficiencies.

7. Working on multiple projects simultaneously to a high standard.

## TRAINING

### SE Factory (Cycle 7), Beirut/Lebanon

JULY 2018 - OCTOBER 2018

Reference: [info@sefactory.io](mailto:info@sefactory.io)

Intensive full stack web development program covering cloud architecture, front-and back-end development, source control, and web application security over 14 weeks of lectures, workshops, and projects.

## EDUCATION

### Lebanese International University— BS in Computer Science

OCTOBER 2015 - JUNE 2018

GPA 3.25/4

Telephone: +961 7767603

- Cisco certifications (CCNA1, CCNA2, CCNA3, CISCO1);
- Comprehensive understanding of design, development, testing, and documentation of a range of framework and tools (such visual studio, Android Studio, net beans)
- Database management (MySQL, Firebase);
- Understanding Java programming, covering fundamentals such as data types, program control and decisions, loops, string manipulations, procedures, arrays, software testing, and debugging; and advanced concepts such as recursion, linked data structures, and Java's Collection Framework.
- Delving into Artificial Intelligence, covering concepts and techniques in AI, including "reasoning", problem-solving.
