Education

2020

High school degree

Shhour High school

2022

2nd year computer science degree

Islamic University of Lebanon

Expertise

- Web Development
- Android App development
- UI/UX
- Data entry
- WordPress
- GitHub
- Email services

Language

English ★★★★★★

Arabic ★★★★★★

German ★★★★★★

French ★★★★★★

Certificates

- Android App Development Master Course with Java | Android
- Mobile Application Development Training Program course at STC UNRWA.

Hasan Naim

Programmer, Designer

I am a 20 years old flexible programmer with excellent creativity and time management skills. I am a good communicator with proven interpersonal skills and am used to working in a team whilst also capable of using my initiative. I am skilled in dealing with problems in a resourceful manner and negotiating to achieve beneficial agreements. I am always enthusiastic about learning and undertaking new challenges.

Experience

Android Developer

- Strong knowledge of Android SDK, different versions of Android, and how to deal with different screen sizes
- Familiarity with RESTful APIs to connect Android applications to back-end services
- Strong knowledge of Android UI design principles, patterns, and best practices
- Experience with offline storage, threading, and performance tuning
- Ability to design applications around natural user interfaces, such as "touch"
- Familiarity with the use of additional sensors, such as gyroscopes and accelerometers
- Knowledge of the open-source Android ecosystem and the libraries available for common tasks
- Ability to understand business requirements and translate them into technical requirements
- Familiarity with cloud message APIs and push notifications
- A knack for benchmarking and optimization
- Understanding of Google's Android design principles and interface guidelines
- Proficient understanding of code versioning tools, such as Git
- Familiarity with continuous integration

Java Developer

- Develop multimedia applications.
- Develop technical designs for application development.
- Design, implement and maintain Java-based applications that can be high-volume and low-latency.
- Contribute to all stages of software development lifecycle.
- Write well designed, testable code.
- Conducting software analysis, programming, testing, and debugging.
- Manage Java and Java EE application development.
- Develop documentation to help users.

Designer

- Creator of Canva templates on many fields (Building templates ,letters, etc..)
- UI/UX Figma designer ,Building application templates.
- Worked with the product development team to develop packaging and manuals for all products, utilizing Adobe InDesign and Photoshop.

Mern Stack Web Developer

- Developed and maintained web applications using the MERN stack, ensuring high performance, responsiveness, and scalability.
- Implemented RESTful APIs and integrated them with MongoDB to handle data manipulation and retrieval.
- Created modular and reusable UI components using React.js, improving code maintainability and enhancing the user experience.
- Assisted in the development of responsive web applications using the MERN stack.
- Implemented front-end designs using HTML, CSS, and JavaScript, ensuring cross-browser compatibility.
- Integrate front-end interfaces with the back-end functionality.
- Conducted thorough testing to identify and fix bugs and ensure application stability.
- Assisted in the deployment of applications to various hosting platforms, including Heroku and AWS.
- Contributed to the documentation of code and application features.

Skills

- | | | | |
|---------------------|------------------|------------------|---|
| • Html | • Android Studio | • Node.js | • Web3 Development on the Internet Computer |
| • Css | • Sdk | • Express.js | • Token contract development |
| • JavaScript | • XML | • EJS | • NFT minting, buying and selling logic |
