EXPERINCE

Programming Instructor | **Bright Champs** | Remote

7/2022 → 9/2022

Worked with students from different nationalities across the world to introduce them to the world of programming from an early age. Through my role as their tutor, I strove to make the sessions as engaging and comprehensible as possible, to demystify the often-daunting misconceptions associated with the field.

Academic Instructor | **Follow up Academy** | On site

2/2022 → 6/2023

In this role as a Mathematics and Physics instructor, I developed a series of courses with materials curated to not only level up my student's academic knowledge to the required levels, but also to enable problem solving skills that will accompany my students throughout their life.

EDUCATION

Engineering in **Electrical Engineering-Computer and Communication** | **Lebanese University**
