Bachelor Degree in Computer Science

Lebanese American University
📅 2020 - 2023

GPA
3.0 / 4.0

EXPERIENCE

Software Developer

IQUAD Learning Solutions
📅 06/2023 - 06/2024   📍 Beirut

- Led development of the "SLink" app for both iOS and Android platforms.
- Utilized Swift, Java, Node.js, AWS, and Postman for development, testing and debugging.
- Developed RESTful APIs and maintained backend services, ensuring seamless integration.
- Implemented new features and ensured high performance and reliability of mobile apps.
- Used Git for collaboration and Jira for project management.
- Contributed to project strategy and app success with the product development team.

IT Support (Student Employment)

Lebanese American University
📅 09/2022 - 06/2023   📍 Beirut

- Responsible to resolve software and hardware-related problems ensuring smooth operation in classes.
- Assisting faculty and staff with general Network, Telecom, and Hardware problems.

Web Developer Intern

Integrated Digital Systems
📅 05/2022 - 08/2022   📍 Beirut

- Designed and implemented a database for a web application project.
- Developed the front-end of the web application using ReactJS.

PROJECTS

StriveDeck (2023)

Educational platform developed for my final year project where teachers upload materials and students access content. Built with HTML, CSS, JavaScript (frontend) and Laravel (backend).

Nutrium (2022)

Nutrition platform connecting dietitians with clients. Features include tracking macros and calories. Developed using HTML, CSS, JavaScript, and MongoDB.

Groceteria (2022)

Mobile app for ordering online groceries. Developed with Android Studio (Java) for frontend and PHP (XAMPP) for backend.
