I am a Computer Science graduate looking for a job in a reputable company.

EDUCATION

Bachelor of Science (B.S.) - Computer Science   Oct 2020 - Oct 2033
Lebanese University, Beirut

EXPERIENCE

Internship

PHP Development Intern | Integrated Digital Systems – IDS November 30, 2023 - January 31, 2024

Enhanced my proficiency in PHP, REST APIs, HTML, CSS, JavaScript, and jQuery during the internship, contributing to the development of high-quality, efficient code.

Projects

PHP project for the university: Developed a content management system (CMS) for a restaurant using **Laravel**.

Spring Boot: developed a Library Management System as a part of a university project using Spring Boot and MongoDB as the primary database.

Wordpress: developed a website for a training center using wordpress themes.

Software engineering project for the university: Proposed a project plan for a vaccination system.

Web development project for the university: (using HTML, CSS, JavaScript) Developed a website for blood and organ donation featuring forms for collecting necessary information.

Participated in a web development competition representing my school at the national level of Lebanon: (using HTML, CSS). The website shows the school latest news and exams samples.

SKILLS

Spring Boot, Wordpress, ASP.net, Laravel, Android Studio, Mongodb, RESTfull APIs
OOP (java), C, C++, PHP, Python, HTML, CSS, Javascript, jQuery, SQL,
Design Patterns, Parallel Programming
