WORK EXPERIENCE

Full Stack Web Development Internship
IDS Fintech | Hazmieh

July 2022 - October 2022

During my internship in full stack web development, I had the opportunity to work on various technologies such as Angular, .NET Core Web API, C#, SQL Server, and Git. One of the significant projects I worked on was the development of a bookstore management system.

SKILLS

- Angular
- NodeJS
- Android Studio Java
- Flutter
- Java
- PHP
- OOP
- .Net Core
- C#
- C++
- Unity C#
- HTML / CSS
- JavaScript
- jQuery
- Bootstrap
- Rest API
- XML
- JSON
- Firebase
- MongoDB
- MYSQL / SQL Server
- PL/SQL
- GIT
- UNIX
- Adobe Illustrator
- Adobe Photoshop
- Adobe InDesign
- 3ds Max
- Project Management
- Microsoft Azure
- Digital Marketing
- Google Analytics

PROJECTS

- Trips Planner Mobile Application using Android Studio Java & Firebase.
- Tourism Guide Website using Angular, NodeJS and MongoDB.
- Platform Game using Unity C#.
- Bookstore Management System Website using Angular, .NET Core 6, C#, REST API and SQL Server.
- Online Food Ordering Website using Html, CSS, jQuery, JavaScript, PHP and MySQL.
- Bookstore application using Java Swing.
- Smart Home Automation using Java and Xml.
- Chat Application Server using Java and MongoDB.
- Time Management System For Employees using C++ (Data Structures).
- Social Network using C++.

CERTIFICATIONS

CISCO CERTIFIED NETWORK ASSOCIATE (CCNA V7)
- Introduction to Networks.
- Routing and switching and wireless essentials.
- Entreprise Networking, Security, and Automation.
