Academic

Lebanese University - Faculty of Engineering | 2019-2024

2021 – now: 3 years in Electrical and Electronics
Department, specialist in telecomm-
unications and computer engineering

Courses : Database, Concurrent and Parallel Program-
ing, Machine Learning, Operating System,Network
Essentials, Project Management, Telecommunication,
Digital Signal Processing, Data Analysis, Cryptography
and Security, Mobile Communication..

2019 – 2021: Common Trunk: 2 intensive years
of studying mathematics, physics,
chemistry, programming and
engineering science.

Bachelor degree Lebanese in general science | 2018-2019

Personal Projects

Neural Style Transfer | 2022

ML project that combines a content image with a style
one to gives a stylized image using Neural Network.

Hazardous Asteroid Classification | 2023

ML project that used Logistic Regression and SVM
models to classify the dataset of asteroids.

Employment Management System | 2023

Parallel and Concurrent Project that uses Winform
Entityframework .NET7 to generate the system forms.

360° VIRTUALROOM | 2024

Entrepreneur Project about VR Furniture Shopping.

Internships

Vanrise Solutions | Summer 2022

Web Development - 6 weeks (45 hr/week)

DAVID Lab at Versailles University | Summer 2023

Understanding certain AI Chatbot integra-
tion concepts through LLM and construct-
ing it utilizing the GeminiAPI.(Remote)

Achievements

Math competition | 2017 - 2018

Designing an innovation of a math game
(LCM kakuro puzzle) organized by LAU
university - 2nd place

Skills

- C
- C++
- C#
- SQL
- HTML
- CSS
- JAVASCRIPT
- PYTHON
- AUTOCAD
- JAVA
- PHOTOSHOP
- PREMIERE
- CST
- TEAM WORK
- COMPUTER SKILLS
- PROBLEM - SOLVING SKILLS
