

# Imad Dandachi

Web Developer

## EXPERIENCE

2022-2023

Power International I Istanbul, Turkey

### JUNIOR WEB DEVELOPER

- Writing clean and efficient code using programming languages such as HTML, CSS, JavaScript and Python.
- Conducting thorough testing and debugging of web applications to ensure functionality and optimize performance.
- Troubleshooting and resolving technical issues, bugs, and errors that arise during development or deployment.
- Collaborating with senior developers and project teams to gather requirements and understand project objectives.

2019-2021

OMT, Western Union I Beirut, Lebanon

### FINANCIAL SERVICE REPRESENTATIVE

- Assisting customers in person, over the phone, or through online channels to process money transfers and bill payments.
- Providing information and guidance on Western Union's / OMT's services, including fees, exchange rates, and transaction options.
- Verifying customer identities and ensuring compliance with regulatory requirements.
- Collaborating with other departments or teams within Western Union to address complex or escalated customer cases.

2018-2019

Studypedia I Beirut, Lebanon

### ADMIN ASSISTANT

- Managing correspondence: Handling incoming and outgoing mail, emails, and phone calls. Drafting and preparing letters, memos, reports, and other documents as needed.
- Data entry and record keeping: Maintaining accurate and up-to-date records, databases, and filing systems. Entering and organizing information, such as contact lists, financial records, and inventory.
- Research and information gathering: Conducting research and gathering information on various topics as assigned. Compiling and summarizing findings to assist with decision-making or presentations.
