PROFILE

As a dedicated and enthusiastic full-stack web developer, I have constructed a strong foundation for a wide array of web development technologies. With a year of professional experience, I have demonstrated proficiency not only in designing, implementing, and maintaining server-side logic but also in integrating these components with frontend technologies. My passion lies in creating efficient solutions that include the entire system

EDUCATION

BACHELOR in COMPUTER SCIENCE, LEBANESE INTERNATIONAL UNIVERSITY

LEBANON, 2021 – 2023

PROFESSIONAL EXPERIENCE

FULL STACK WEB DEVELOPER

FREELANCER, LEBANON, MAY, 2023 – PRESENT

1- INVOICE WEB APPLICATION

- Designed and developed a comprehensive solution aimed at optimizing and refining the invoicing processes for internet-based shops.
- Engineered a user-friendly interface facilitating seamless generation and tracking of invoices, thereby significantly enhancing the overall invoicing experience.
- Implemented real-time updates and notifications to provide timely status updates on invoices, ensuring transparent communication between shop owners and customers.
- Integrated secure authentication mechanisms to fortify data protection and ensure confidentiality of sensitive information.
- Leveraged cutting-edge technologies such as React.js, Node.js, and MongoDB to establish a robust and scalable foundation, poised for future expansion and evolution.
- Successfully delivered a tailored invoice web application tailored to the unique requirements of internet shops, driving efficiency gains in the invoicing workflows for both shop owners and customers.

2- ELECTRICITY BILLING WEB APPLICATION

- Automated the generation and distribution of billing statements, streamlining the entire invoicing lifecycle.
- Incorporated a secure payment gateway to facilitate seamless online transactions, ensuring convenience and reliability for users.
- Crafted responsive and intuitive user interfaces utilizing React.js, enhancing accessibility and user satisfaction.
- Resulted in the creation of a user-centric system, minimizing manual interventions in the billing processes and furnishing actionable consumption insights.
- Implemented robust technologies, including React.js, Node.js, and MongoDB, to establish a scalable infrastructure primed for future growth and adaptability.
- Boosted operational efficiency by introducing automated billing solutions, reducing administrative burdens and enhancing productivity.
- Enabled secure online transactions for electricity payments, fostering trust and confidence among users in the billing platform.

BACKEND WEB DEVELOPER

INTERNSHIP, LEBANON, AUG,2023 – OCT,2023

- Gaining hands-on experience in designing, implementing, and optimizing Rest APIs using ASP.NET Core.
- Working on real-world projects, contributing to the development of scalable and efficient API solutions.
- Contributing to the improvement and expansion of our blogging platforms.
- Focusing on features that enhance the user experience and functionality.
- Gaining exposure to the integration of PostgreSQL databases in blogging platforms and understanding best practices for data management.
- Working within a professional team environment, gaining valuable experience in a company setting

PROJECTS

Teach2Learn (e-learning website)

- A full-stack web was submitted to the School of Arts and Science of the Lebanese International University as part of fulfilling the requirements for the Bachelor of Computer Science degree. This platform integrates both front-end and back-end technologies to create a powerful learning experience that is close to the classroom experience, offering students everything they need in one place, such as lectures, exams, grades, and opportunities to meet and chat with other students.

TECHNICAL SKILLS

- | | |
|--------------|----------------|
| ● MS OFFICE | ● BOOTSTRAP |
| ● JAVASCRIPT | ● SQL |
| ● NODE.JS | ● ASP.NET CORE |
| ● REACT.JS | ● PYTHON |
| ● PHP | ● HTML/CSS |
| ● JAVA | ● MYSQL |
| ● PostgreSQL | ● MONGODB |
| ● C# | ● OOP |

SOFT SKILLS

Attention to Detail, Communication, Teamwork, Fast Learner, Adaptability, and Time Management.

LANGUAGES

- | | |
|-------------------------|--------------------------|
| ● Arabic: Native | ● English: Fluent |
