### PROJECTS

#### SOLAR ADVICE

Senior Project  
2022

- Built a fully responsive website that allow solar companies to add their products, customers and managing them.
- The website allows the companies to create a username, and therefore have access to enter products with names, pictures, specs, and to be later on shown to the public as ads or as products surfing.
- It also allows the customers to surf the website for products already put by the companies, compare 2 products, and create also a username and password to let them insert their own plant, and receive notifications for the maintenance.
- Built using HTML, CSS, PHP, JavaScript, Bootstrap, MySQL Database.
