SAEED TAMER HAIDAR

RF Engineer/ Networking

📞 +961 76477292 @ saeedwhaidar@gmail.com 🔗 www.linkedin.com/in/saeedhaidar
📍 Choueifat, Lebanon

SUMMARY

Hands-on experience in conducting RF projects from designing, Frequency tuning/ optimization, to integration, RF Data Sheet, understanding of design of LTE technologies, knowledge of analyzing Data Sheet designs and implementing the changes to improve the network performance when needed.

EDUCATION

Computer and Communication Network Engineering

Lebanese University

📅 04/2017 - 10/2021

Cybersecurity Online Training

IT CareerSwitch

📅 04/2023 - Present

- CompTIA courses (4 courses)
- Cisco certified network association

Quality Assurance Course

Udemy|Youtube

📅 08/2023 - Present

- Covered fundamental principles, testing methodologies, and best practices for ensuring software quality.
- Gained knowledge about manual and automated testing techniques, including creating test cases, executing test scripts and identifying defects.
- Acquired knowledge of various testing methodologies, such as functional, regression, performance and usability testing.
- Actively studying SQL to enhance database testing skills
- Currently enrolled in a self-paced course to learn JAVA, HTML, PYTHON, CSS and PHP for Quality Assurance.

EXPERIENCE

Associate RF Engineer

Novelus

📅 07/2021 - 08/2023   📍 Lebanon

Supporting projects with both U.S Operators AT&T and T-Mobile

- Worked on LTE 4G/5G pre-launch optimization projects.
- Assist the client with RF Optimization, device testing, quality assurance, and bug tracking.
- Actively participated in pre-launch of sites, alarm monitoring, KPIs, VSWR and parameter checks.
- Perform parameter audits, data fill parameters, conduct, pre-post analysis, and prepare performance reports.
- Analyze drive test data and propose software and hardware recommendations to optimize and improve network performance.
- Managed multiple projects effectively and completed the tasks when team was in need.
- Streamlined a project by introducing an automated tool to provide accurate work and to save time.

Internship

Ogero

📅 07/2018 - 09/2018   📍 Lebanon

Internship projects:

- Project planning and project management
- Design a Network plan schema.
- Learn the necessary codes for number planning.

SKILLS

| Microsoft Excel | DriveTest | LTE/5G Technologies | Basic Knowledge in Flutter | Mathematics |

| Networking | VOIP | Operating System | Basic Knowledge in SQL | Command Line Interface |

SKILLS

Troubleshooting   Time Management   Work Ethic   Flexibility   Creativity   Multitasking

Problem Solving   Teamwork   Critical Thinking
