Profile

Experienced iOS developer with a BS in Computer Communication Engineer CCE. Skilled in Table View, collection View, JSON decoding, API, chatting integration, MVC, MVVM and Google Firebase. Developed apps for I-Stay and UDU Jobs for 5 years and trained in blockchain and crypto programming. Demonstrating leadership as a Senior Technical Manager at Genimex Company for Automation Systems, overseeing projects and mentoring a team

Professional Experience

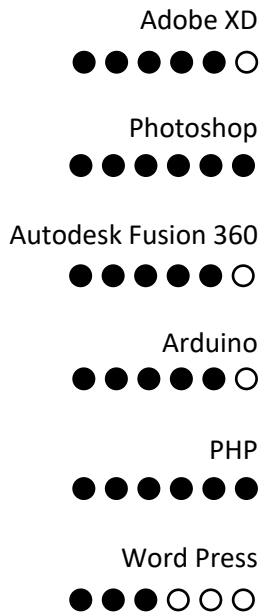

IOS DEVELOPER JUN 2022
I-STAY – LEBANON – Present

- Developing and maintaining iOS applications for mobile diagnostics in collaboration with off-shore companies like Asset Science LLC, as part of the outsourcing services provided by I-Stay.
- Collaborating with cross-functional teams to design and implement efficient codebase and user-friendly front and backend interfaces.
- Integrating APIs, handling JSON decoding, and incorporating unit testing functionalities to enhance code review.
- Applying objective-C, TableView, CollectionView, and Sentry to optimize app performance and user engagement.

IOS DEVELOPER JUN 2022
UDU Jobs LTD – Lebanon – MAY 2021

- Designing, coding, and launching iOS applications contributing specifically to USA Detroit.
- Working closely with UX/UI designers to implement visually appealing and intuitive app interfaces.
- Implementing Swift programming techniques to build responsive and high-performance app features.
- Ensuring seamless API integration, managed JSON data, and implementing push notifications using Firebase.

Software Skills

LANGUAGES

English: Fluent
French: Good
Arabic: Native

SENIOR TECHNICAL MANAGER

GENIMEX – Lebanon

SEP 2009

– JUL 2021

- Managing a team of technical experts in designing, programming, and implementing automation solutions for diverse clients.
- Collaborating with clients to gather requirements, scope projects, and ensure timely and successful project delivery.
- Successfully designing and programming automation systems for prestigious clients, including universities and schools.
- Providing technical leadership and mentorship to junior team members.

Projects

- “Bee-Smart” E-Commerce Website for smart home control www.bee-smart.co (2023)
- “Asset Science” Mobile Diagnostics App (2022)
- “Kaser” App for selling car parts for electric cars (2022)
- UDU Jobs “Quick Home Repair” App (2021)
- Crestron Configuration for WHO Shock Room and LAU Byblos & Beirut (2018)
