

Rami Hamadeh

Semqunieh- Shouf, Lebanon

+961 78906965 ramihamadeh2002@gmail.com

Date of birth: July 12, 2002

Nationality: Lebanese

Occupation: Senior Computer Engineering Student

PERSONAL STATEMENT

A passionate, persistent and fast learner Computer Engineering student. Ambitious, motivated and patient when it comes to solving complex tasks. Developed teamwork, leadership and communication skills through voluntary community work and public speaking events. Sparked interest in programming since the age of 13 which then evolved into immense passion towards the topic.

WORK EXPERIENCE

- Murex:** Back-end Developer 2023-2023
- Worked with a talented team to launch multiple microservices using Java Maven framework
 - Handled code optimization, load speeds and connection security to ensure a robust product
 - Sped up database access to achieve over 200% retrieval time improvements from a large-scale database
 - Deeply analyzed existing code
- Neweast:** Full Stack Developer 2022-present
- Worked with a talented team to launch multiple internal systems using Django framework, nodeJS, and angular
 - Handled code optimization, load speeds and connection security to ensure a robust product
 - Transformed the company's website from a static display platform to a fully functional online store, providing customers with an enhanced and dynamic shopping experience.
 - Deployed multiple solutions to Linux and IIS
- Netvariant:** Blockchain Developer 2021-2023
- Developed and deployed smart contract on EVM using solidity
 - Developed and deployed back-end applications for web3 websites
- Backend Developer
- Developed and deployed complex backend structures using Django REST framework and node js
 - Developed and deployed Moqui (Java framework) backend integrations for smart contract communication using web3j
- Our Easy Game:** Project Manager 2021-2022
- Managed a team of talented developers to deliver a mobile application (IOS/Android compatible)
 - Designed and developed a backend API to support the flutter application
 - Integrated multiple services such as Paypal, quickblox, agora etc.
- Geek express:** Instructor 2021-2023
- Reached out to young minds and built a strong programming foundation
 - Taught multiple coding languages including python JavaScript HTML and CSS
 -

KEY ACHIEVEMENTS

- Received an award in Model United Nations at LAU university 2018-2019
- Received multiple awards of academic excellence 2015-2020
- Achieved second place in a national robotics competition 2014-2015
- Awarded best district community event by the ministry of higher education for aiding cancer patients and survivors 2018-2019

EDUCATION

- **Computer Engineering: Lebanese American University.** September,2020-Present
 - ❖ Expected graduation date: June 2024

SKILLS, INTERESTS & EXTRACURRICULAR ACTIVITIES

- **Skills:**
 - ❖ Leadership, Teamwork, Presentation, Communication.
 - ❖ Active Listener, Adaptable, Creative, Critical Thinker and Strategic Planner.
 - ❖ Comprehensive understanding of basic concepts in computer programming.
- **Programming Languages/technologies:** Java, JavaScript, HTML, CSS, SQL, Bootstrap, Node JS, Python, Django, Solidity, Truffle, Hardhat, React, Pandas, Maven, Git, Angular.
- **Individual Interests:** Coding, Reading, Hiking, Swimming, Gym Workout, Kickboxing, and Basketball.
- **Memberships:**
 - ❖ Google Developer student club.
 - ❖ Social Campus Life.
 - ❖ Artificial Intelligence club.
- **Volunteering:**
 - ❖ Helped in the reforestation of the Lebanese cedar reserve in Al-Barouk, Lebanon.
 - ❖ Was involved in a Blood and hair donation campaign for cancer patients.
- **Languages:** Fluent in English and Arabic.
