PROJECTS

Pet Adoption Website | *Visual Studio Code, HTML5, CSS, JavaScript, PHP*

April 2023

Concordia University, Montreal, QC

- Designed and coded a pet adoption website utilizing HTML5 and styled it using CSS to make it visually appealing.
- Employed JavaScript to implement DOM listener events with the purpose of enhancing interactivity for a seamless user experience.
- Used PHP to design a dynamic webpage to enable users to perform their desired actions with ease.

Books Archive Classifier | *Java, IntelliJ, OutputStream, InputStream, Exceptions, Binary Files*

March 2023

Concordia University, Montreal, QC

- Cleaned and polished the data of a books archive by classifying the files and by checking for syntactic and semantic mistakes. Made the data accessible to users through a console-based menu system.
- Application of basic OOP concepts such as binary files, InputStream, Output Stream and exception handling

Receipt Scanner | *Java, Eclipse, Tesseract*

January 2023

ConUHacks VII Hackathon, Montreal, QC

- Demonstrating my teamwork skills by creating a primitive receipt reader and an expense tracking tool that could prospectively be developed into a mobile Application.
- Used Java and the Tesseract library's optical character recognition (OCR) on an image of a receipt to extract text from it.
