

FARAH AL MAJDALANI

Bchamoun al madares | 81/243381 | farahmjdd0@gmail.com

Objective

Highly motivated and results-driven Industrial Engineer intern with a strong academic background and practical experience in optimizing production processes. Seeking a challenging position where I can apply my skills in analysing data, implementing quality assurance measures, and improving efficiency to contribute to the success of a dynamic organization.

Education

BACHELOR'S OF INDUSTRIAL ENGINEERING | LEBANESE INTERNATIONAL UNIVERSITY(2021-PRESENT)

- Visited Sanita and constructed a complete report and presentation with my team on quality control, safety precautions and packaging in specific details.
- Created a program to implement the use of sanitizers and face masks as a project, including the programming and hardware design.
- Participated in electrical circuits labs cultivating knowledge and performing direct applications to further understand the anatomy of circuits and how to efficiently install them to save on energy.

Experience

Assistant manager | Aquafun(2020-2023)

- *Gained valuable communication skills that helped enhance team performance.*
- *Assisted the manager in weekly and monthly tasks distributions and scheduling.*
- *Managed 20 employees effectively by explaining their roles as well as their position and overseeing their performance.*
- *Handled data entry on Microsoft excel.*
