-

COMPUTER LITERACY

Microsoft Office:
Word - Excel - PowerPoint

Scouts Organization Web App

As part of my passion for web development and community engagement, I successfully designed and developed a dynamic Scouts Organization Web App.

Leveraging my skills in HTML, CSS, JavaScript, and PHP, I crafted a user-friendly platform that caters specifically to the needs of scouts and their leaders.

The web app encompasses a range of essential functionalities aimed at optimizing membership management, event planning, badge tracking, and fostering effective communication within the scouting community.

This project exemplifies my commitment to creating impactful solutions for the benefit of organizations and their members.
