Personal Profile

Born on 23 September 1999, holding a Master of Architecture from the Lebanese University. A passionate, enthusiastic architect, nature and music lover, seeking to learn, grow and thrive in the architecture world. Experience in design, planning and using various architecture software. Wide Architectural knowledge of architecture styles, materials and construction methods. A hard-working architect with strong emphasis on project creativity, sustainability and functionalism.

Professional Experience

July 2022 – July 2023 Ghassan Jabri Architects, Beirut - Lebanon

Junior Architect

Outline

Working with Ghassan Jabri Architects to design a mixed-use project combining two organic food warehouses with residential apartments. In addition, I worked on designing a residential villa, as well as collaborating in the design of several residential projects.

Key responsibilities/ Achievements

- Participated in all phases of design and construction processes on various projects.
- Created drawings, layouts, 3d models and renders.
- Produced bills of quantities and specification charts.
- Arrange and attend off and on-site progress meetings with various stakeholders, contractors and sub-contractors.
- Responsible for ensuring that the design, installation and testing is compliant with the OEA Regulations.
- Advises the project manager of the completeness of works, and supports the team to validate milestone payments.

June 2020 – June 2021 Spaces Construction Ltd, Beirut – Lebanon

Intern Architect/Architectural Assistant

Outline

Working with Spaces Construction Ltd as an intern to complete my bachelor program. After finishing the 2-month internship, the manager offered me a job as an architectural assistant. During my time, I contributed in the design of 2 residential villas as well as site supervision and management.

Key responsibilities/ Achievements

- Participated in all phases of design and construction processes on residential projects.
- Produced residential designs, drawings, layouts, 3d models and renders.
- On site Architect, my duties included, site management, surveying, verifying deliverables against design, and liaising, supervising and directing operations with various sub-contractors.

- Arrange and attend off and on-site progress meetings with various stakeholders.
- Proactively managing risks through daily reporting to the project manager, highlighting blockers and engaging the main contractor to mitigate these risks.
- Conduct safety inspections with contractor's senior team on a regular basis.
- Managed interfaces between local authorities, police and residents.

Education

- **Master of Architecture (M.Arch.)** – Lebanese University – 2021-2023
