## EDUCATION

---

**Lebanese American University**  
*B.S. in Computer Science*

**Beirut, Lebanon**  
**September 2022 – May 2025**

## PROJECTS

---

- **Marvel themed Police Station Database Management Project**
  - Came up with entities for the DBMS then proceeded to build an ER model and a database schema of the system. The ER model included composite, and multivalued in addition to relationship with their attributes between entities.
  - Translated my ER-diagram into relational schemas in addition to mapping a Conceptual Design into a Logical Design.
  - Built my database on the Oracle Server by creating tables and inserting data.
  - Came up with 10 transactions to query my database.
  - Expressed my queries in SQL.
  - Executed my SQL queries against my database implemented using ORACLE.
  - Link to the DBMS Report & the ER-diagram: [DBMS PROJ](#)
- **E-commerce Website**
  - Responsive E-commerce website using HTML and CSS with a creative design
  - Link to the Website: [Complete responsive flower website design tutorial \(nourrida.github.io\)](https://nourrida.github.io)
  - Link to the code: [NourRida/E-commerce \(github.com\)](https://github.com/NourRida/E-commerce)
- **Simple JavaScript Weather Project Using API**
  - GitHub link: [NourRida/Weatherapi \(github.com\)](https://github.com/NourRida/Weatherapi)

## Programming Languages

---

- Python
- Java
- C
- HTML, CSS, and JavaScript

## VOLUNTEERING

---

- Lebanese Red Cross Youth

## Workshops

---

- Zaka AI Bootcamp with a Certificate
- AWS Community Day Beirut
- Devfest Beirut 2023

## ADDITIONAL INFORMATION

---

- Languages: English (Full Professional Working Proficiency) - Arabic (Native Proficiency) – French (Learning currently)
- Hobbies: Yoga and Reading.
