WORK EXPERIENCE

Full-stack Developer
UNILOG Liban SAL

08/2022 - 11/2023   *Hazmiyeh*

Achievements/Tasks
- Responsible for the creation the side menu and navigation menu of the platform using HTML, CSS, PHP and JavaScript.
- Worked with senior PHP developers to understand and enhance user experience.
- Worked with the database schema design and normalisation for database accessed by the procedural PHP pages.
- Managed and maintained development of PHP Backend for dynamic database driven application.
- Incorporated google map services and APIs into an existing project.
- Participated in the entire project life cycle including analysis, design, and development.
- Created an app that allows user to login from either their Microsoft or google account with authentication, for them to reserve meeting room either through a forum or graphically from a calendar that is updated in real time.
- Created a comprehensive tracking application as a valuable extension to the Salata app ecosystem. This innovative solution seamlessly monitors orders throughout their entire life-cycle, from initial customer request to efficient assignment to drivers.
- The app provides a real-time visual representation on a map interface, enhancing driver navigation. Implemented an intuitive admin dashboard catering to diverse administrative functionalities
- The dashboard empowers administrators to efficiently manage incoming orders, seamlessly allocate them to drivers, oversee staff operations, and access historical sales data with insightful chart visualisations.

Cashier
Charcutier aoun

07/2015 - 09/2019   *Naccache, Rabye, Sed el Bouachriyeh*

Achievements/Tasks
