Summary

Dedicated and enthusiastic Computer Science graduate with a strong foundation in programming, problem-solving, and software development. Eager to apply my knowledge and skills to contribute to innovative projects and solutions in the field of technology. A quick learner, team player, and effective communicator with a passion for staying updated with emerging trends in the tech industry.

Projects

Foodie App, senior project.

- Collaboration with cross-functional teams on the design, development, and maintenance of mobile application, including restaurants automated system.
- Development of responsive user interfaces using Flutter.
- Participated in team meetings and contributed to project planning and execution, including providing feedback on architecture and design decisions.
- Implement responsive design solutions that enhance the user experience across all devices.
- Suggest and add new features in the system.
