Summary

Versatile and ambitious professional with a strong foundation in business and advanced training in web development. At 24 years old, I bring a dynamic skill set and a proven track record in front-end development and WordPress customization. My journey in the tech industry led me to excel as a QA Automation Engineer at mdGroup, where I embraced best practices and Scrum methodologies to deliver high-quality results.

Experience

Freelance/Self Employed

Web Developer   01/2023 - Present

Responsibilities:

1. **Client Consultation:**Engaged in thorough consultations with clients to understand their specific needs, goals, and requirements for informative websites.
2. **Web Design and Development:**Designed and developed visually appealing and user-friendly informative websites tailored to clients' branding and content preferences.
3. **Content Integration:**Integrated and organized informational content, ensuring clarity, coherence, and effective communication of key messages.
4. **Responsive Design:**Implemented responsive design principles, ensuring optimal user experiences across various devices and screen sizes.
5. **Search Engine Optimization (SEO):**Applied SEO best practices to enhance website visibility and improve search engine rankings for relevant keywords.
6. **Client Collaboration:**Maintained open communication with clients throughout the development process, incorporating feedback and ensuring client satisfaction.
7. **Project Timelines:**Managed project timelines effectively, delivering informative websites within agreed-upon deadlines.

Accomplishments:

1. **Diverse Portfolio:**Successfully built a diverse portfolio of informative websites spanning various industries, showcasing adaptability and versatility in design and functionality.
2. **Positive Client Feedback:**Received positive feedback from clients for delivering websites that met or exceeded their expectations in terms of aesthetics and functionality.
3. **Increased Website Traffic:**Implemented effective SEO strategies resulting in increased organic traffic to client websites.
4. **Repeat Business:**Cultivated strong client relationships, leading to repeat business and referrals based on the satisfaction of previous projects.
5. **Adaptability to Trends:**Stayed current with web design trends and technologies, integrating new features and design elements to enhance the overall user experience.
6. **Timely Project Delivery:**Consistently met project deadlines, contributing to a reputation for reliability and professionalism in freelance web development.

mdGroup

QA Automation Engineer   01/2023 - Present

Responsibilities:

1. **Automated Testing Development:**Contributed to the development of automated test scripts using tools such as cypress, enhancing testing efficiency and accuracy.
Implemented and maintained automated test suites for various application modules, improving overall test coverage.
2. **Manual Testing and Scenario Creation:**Conducted detailed manual testing, creating comprehensive test scenarios to identify and address potential issues during different stages of development.
Executed and documented manual test cases, ensuring thorough coverage of application functionality and user workflows.
3. **Release and Regression Testing:**Participated in release testing processes, conducting thorough regression testing to ensure the deployment of high-quality software.
Collaborated with the QA team to identify and address post-release defects promptly.
4. **Cross-Functional Collaboration:**Worked closely with the QA team, developers, product management, and customer support to understand project requirements and provide timely feedback throughout the development lifecycle.
Actively participated in cross-functional meetings, fostering a collaborative approach to quality assurance.

Accomplishments:
1. **Automated Testing Implementation:**Contributed to the successful implementation of automated testing, resulting in a 30% reduction in testing time and improved overall test coverage.
2. **Efficient Regression Testing:**Played a key role in optimizing the regression testing process, ensuring efficient release cycles and minimizing the likelihood of post-release defects.
3. **Quality Improvement Initiatives:**Implemented quality improvement initiatives that led to a 15% decrease in critical defects identified in production.
4. **Collaborative Problem-Solving:**Actively engaged in collaborative problem-solving within the QA team, contributing to a proactive and solution-oriented work environment.
5. **Project Support:**Supported the successful and timely delivery of multiple projects by ensuring rigorous testing and adherence to quality standards.

Abiroot

QA Automation Lead / Front-end Developer • Zouk Mosbeh, Kesserwan   07/2022 - Present

Responsibilities:

1. **QA Automation:**Spearheaded the implementation of automated testing strategies using Cypress, ensuring the efficiency and reliability of web applications.
Collaborated with cross-functional teams to design, develop, and execute automated test scripts, significantly reducing testing time and improving release cycles.
2. **Front-End Development:**Utilized native front-end languages to create responsive and visually appealing user interfaces, contributing to the overall enhancement of the company's web presence.
Worked closely with designers and developers to translate wireframes and design mockups into interactive and functional web applications.
3. **WordPress Customization:**Played a key role in customizing WordPress themes and plugins, tailoring solutions to meet specific project requirements.
Maintained and updated WordPress websites, ensuring optimal performance, security, and adherence to industry best practices.
4. **React Native Development:**Applied React Native expertise to develop mobile applications, achieving seamless integration with backend services and delivering a superior user experience on both iOS and Android platforms.
Collaborated with the development team to troubleshoot and optimize React Native applications for performance and responsiveness.

Accomplishments:
1. **Efficiency Improvements:**Implemented automated testing protocols, resulting in a 30% reduction in testing time and a 20% increase in overall development speed.
2. **Quality Assurance:**Successfully identified and addressed critical issues in early development stages through rigorous automated testing, preventing potential production incidents.
3. **WordPress Optimization:**Enhanced the performance of WordPress websites, resulting in a 15% decrease in page load times and improved user engagement.
4. **Mobile App Success:**Led the development of React Native applications that garnered positive user reviews, achieving a 4.5-star rating on app stores.

5. **Collaborative Problem-Solving:**Worked collaboratively with cross-functional teams to troubleshoot and resolve complex issues, fostering a culture of proactive problem-solving within the development environment.

Talal Abu-Ghazale

Intern   03/2021 - 04/2021

Responsibilities:

   1. **PHP Web Development:**Actively participated in the development of a login and registration website using PHP, contributing to the overall functionality and user experience.
   2. **Collaborative Project Management:**Worked closely with a mentor/teacher to understand project requirements, establish goals, and plan the development process effectively.
   3. **Code Implementation:**Wrote and implemented PHP code for the login and registration features, ensuring adherence to coding standards and best practices.
   4. **Debugging and Troubleshooting:**Identified and resolved coding issues through systematic debugging and troubleshooting, demonstrating a problem-solving mindset.
   5. **Documentation:**Maintained comprehensive documentation of the development process, including code comments and project notes for future reference.

Accomplishments:
   1. **Successful Website Implementation:**Collaborated with the mentor/teacher to successfully develop and launch a fully functional login and registration website within the internship period.
   2. **PHP Proficiency:**Gained proficiency in PHP programming language through hands-on experience in building dynamic web applications.
   3. **Problem Resolution:**Addressed and resolved challenges encountered during the development process, showcasing adaptability and a commitment to project success.
   4. **Collaborative Learning:**Actively engaged in a collaborative learning environment, absorbing insights from the mentor/teacher to enhance technical skills.
   5. **Documentation Best Practices:**Applied best practices in documentation, ensuring that project details were well-documented for future reference and knowledge sharing.

Education

Lebanese University, Faculty Of Business

Bachelor Of Business Computing • Achrafieh, Beirut   12/2022

SSCC Bauchrieh
